DECLARATION FOR OFFICERS

A great patriotic national movement has begun in our fatherland for the betterment of our socialist democracy, for the correction of the grave mistakes committed by the Rakosi - Gero clique and for the assurance of our national independence and sovereignty.

I acknowledge the legality of these demands and lend them my support. At the same time, I sincerely condemn all forms of counter-revolutionary force, the brutal white terror, the aspirations of those who wish to restore capitalism and the subversive activities of capitalist circles directed against our peoples' government.

I am willing to fight these aspirations with all my strength. I know that reactionary forces have deceived the honest workers.

This situation was aggrevated by the weakness and indecision of the government of Imre Nagy. As a consequence of his policies, discipline was undermined in our National Army. Our nation was in danger of being over-powered by reactionary forces which demanded that the factories be returned to the capitalists, the land to the landowners and that the government representing the peoples' will be overthrown.

I declare that I will unconditionally join the Government of the Revolutionary Workers and Peasants which was born on 4 November 1956. I will support our government in the correction of past mistakes and omissions.

I agree that, in view of the counter-revolutionary dangers threatening our fatherland, it was necessary to request the aid of the friendly government of the Soviet Union and of the allied Soviet Army for the annihilation of the counter-revolutionary forces and for the restoration of our democratic system as well as for the strengthening of our freedom.

I am an adherent of the friendship of Hungary and the Soviet Union which is based on the principle of frank equality!

I solemnly declare that I recognize that the decisions of the Government of the Revolutionary Workers and Peasants are unconditionally binding upon me in accordance with the military oath. I will consciously obey all military orders.

I am fully aware that our national government is in need of an army that is able to maintain order throughout the country to restore a peaceful regime and that such an army must lend unswerving support to our Government and our Peoples' Democratic System.

At the same time, I declare that I had no part in the deeds which violated the laws of our Peoples' Democracy and which are condemned by the Hungarian Government of Revolutionary Workers and Peasants.
